

NAME: D.PRAVEEN KUMAR

SECTION: A

ROLL: 422139

1. Write shell script for commands:
more,nl,nice,passwd,pr,rlogin,rcp,rsh,talk,telnet,tput,ty,uname,wc,who,write 2. Write a shell script that list the memory usage and cpu usage of multiple machines.

Output:

```
veerendra@veerendra:~/Desktop/pts/week11$ chmod 777 week11.sh
veerendra@veerendra:~/Desktop/pts/week11$ ./week11.sh
Executing commands: more, nl, nice, passwd, pr, rlogin, rcp, rsh, talk, telnet, tput, ty, uname, wc, who, write
-----
more command example:
more: cannot open ./file.txt: No such file or directory
nl command example:
nl: ./file.txt: No such file or directory
nice command example:
file week11.sh
passwd command example:
Changing password for veerendra.
Current password:
New password:
BAD PASSWORD: The password is shorter than 8 characters
New password:
BAD PASSWORD: The password contains the user name in some form
New password:
Retype new password:
passwd: password updated successfully
pr command example:
pr: ./file.txt: No such file or directory
rlogin command example:
ssh: connect to host 10.0.2.15 port 22: Connection refused
rcp command example:
ssh: connect to host 10.0.2.15 port 22: Connection refused
lost connection
rsh command example:
ssh: connect to host 10.0.2.15 port 22: Connection refused
talk command example:
./week11.sh: line 48: talk: command not found
telnet command example:
Trying 10.0.2.15...
telnet: Unable to connect to remote host: Connection refused
tput command example:
00
ty command example:
/dev/pts/1
uname command example:
Linux veerendra 6.2.0-37-generic #38-22.04.1-Ubuntu SMP PREEMPT_DYNAMIC Thu Nov  2 18:01:13 UTC 2 x86_64 x86_64 GNU/Linux
wc command example:
wc: ./file.txt: No such file or directory
who command example:
veerendra tty2      2024-04-11 18:30 (tty2)
write command example:
write: veerendra is not logged in on pts/1
veerendra@veerendra:~/Desktop/pts/week11$
```
